CURTAINS AND FRAMES**

TRUST IN TUSKER

TUSKER CURTAINS AND FRAMES

We design and manufacture an extensive range of durable and flexible mobile welding frames for safe grinding, welding and spraying as well as providing handy, versatile welding shelters.

Tusker curtain material options - Welding Curtain

HIV3 Hivis Amber
A translucent welding PVC recommended where a good degree of visibility is required.

LV1 Lowvis Green
Reinforced for extra strength. Recommended where no visibility is required.

Safearc Amber
Reinforced for extra strength and tear resistance. Recommended for applications where a degree of visibility is required.

Safearc Bronze
Reinforced for extra strength and tear resistance. Recommended for applications where a degree of visibility is required.

TWG1 Weld-green
A dark green welding curtain recommended for all

Neogard 250 or Neogard 400
660gms or 850gms. Neoprene coated fibre-glass material for use as a heavy duty welding/grinding screen or smoke barrier. No visibility.

Canvas
Traditional flame retardant material for use as welding screens or covers. Waterproof and rot-proof.

All our curtain materials are tested regularly and conform to all current standards

Non-welding curtain options

GCL1 Glass clear reinforced
Reinforced for extra strength and tear resistance. Typical applications include paint spray booths and dust protection.

GCL1 Glass clear
Suitable where total visibility is required. Typical applications include paint spray booths and dust.

LEADC
Lead curtain for x-ray protection in industrial, medical or airport environments.

Tusker Strip Curtain

We supply a range of both welding grade strip curtaining and also clear strip curtain for other applications such as dust protection.

Our range includes green, amber and bronze welding strip and clear strip for non-welding applications. Available eyeleted as standard or with platesets and overhead supports.

Tusker Frames are available in a range of options:

- Economy - including portable/mobile
- Standalone
- Heavy duty
- Elephant frames and manhole covers

Tusker Economy Frame

Tusker Economy Frames

A practical and lightweight option which is easy to assemble. The economy range includes options for fully portable frames and foldable frames. Manufactured from galvanised steel with a specially formed 19mm box section to give extra strength.

Our portable welding frame breaks down into two 3 ft sections for easy transportation.

Tusker Portable Frame - comes complete with carry bag

*Also available in 4 x 2ft sections
6ft x 6ft
6ft x 8ft*

Tusker Folding Frame

Our folding frame folds down into three 2ft sections for easy storage.

TUSKER CURTAINS AND FRAMES

Can be supplied with hinged extension arms and other components for a fully customisable solution

Tusker Heavy Duty Frames - ultimate strength

Our Tusker heavy duty frames are constructed from 35mm box section with a bolt-together construction - designed to be strong and robust. Can be fitted with our Tusker curtain and strip.

Both our heavy duty and standalone frame options are powder coated in orange as standard, but can be customised to suit corporate requirements

Ask us about options for castors, extension arms, uprights and horizontal supports to extend frame construction

Tusker Standalone Frames

Our Tusker standalone frames are robust, constructed from 35mm box section with a slot together construction. As our heavy duty frames, can be fitted with Tusker curtain and strip.

Tusker Series Elephant Frames, Manhole Tents and Welding Umbrellas- ready assembled, foldaway and mobile

Available in a range of sizes with a selection of covers to suit, our elephant frames and shelters offer an excellent quality solution for protection from the elements and for both welding and non-welding applications.

Standard size options:
Elephant Frames: 2x2x2m, 3x3x3m, 3x3x2m

Manhole tent: 1x1x2m

Welding umbrella: 2.5 diameter
Or ask us for bespoke sizes

Cover options include heavy duty canvas or a choice of our Tusker Welding PVC. Also available is our Tusker Clearlight shelter - clear roof to let in 70% more light

Welding umbrella

Tusker Machine Covers

We can manufacture covers from a range of materials, for both inside and outside use to fit any machine or part and to any size required. Our cover solutions can be for temporary or permanent applications.

We manufacture covers to specific requirements. This examples shows a heavy duty canvas cover for First Great Western
