# TUSKER INDUSTRIAL PROTECTIVE CLOTHING

Our industrial clothing is a high quality, versatile range that stands up to the most demanding applications. With ranges manufactured in a selection of materials such as FR leather, proban and aluminised material from our standard options, and specialist materials including aramids for bespoke orders, Tusker industrial clothing is a solution for a wide range of industry requirements.

We pride ourselves on the quality of the raw materials used in our clothing ranges, the design and the durability of our garments.

## Applications

Within our Tusker industrial clothing ranges, we have garments manufactured from high quality materials suitable for a wide range of applications. Our clothing is a popular choice for welders, in foundries or in any environment where fire retardancy or heat protection is required. We have a range of off the shelf garments and can design bespoke ranges. Our garments are made to the highest specifications in our UK based facility, so lead times are fast.

*Our PPE is made in our UK facility to a high specification*

**Tusker Leather** - our hides are specially selected to be blemish free with consistent thickness. Oil treated for comfort and durability. Heat resistant to 250°C.

*Tan Tusker Leather Premium*

*Red Tusker Leather Premium*

**Tusker GEM+ Aluminised**  
Flame retardant, heat reflective. Protects against metal splash and radiant heat up to 400°C.

*Blue Tusker Leather Premium*

*Chrome Tusker Leather Economy*

**Tusker Proban**  
Durable flame retardant finish. Suitable for light duty welding and grinding.

## THE TUSKER CODE BLACK RANGE - THE ULTIMATE IN WELDING PPE

**QUALITY  
WITHOUT  
COMPROMISE**

We've developed Code Black after 35 years of supplying welding PPE to British and global industry. Our vast experience and skill has enabled us to develop a range that is of supreme quality, practical and comfortable.

Our Code Black garments are designed to give maximum performance and comfort, whilst still providing full protection from spark and spatter. All Code Black garments are compliant to EN ISO11612 FR, ISO11611 welding, EN1149-5 anti-static and EN61488 arc protection regulations.

All garments in the range are heat resistant to 250°C and provide users with the absolute best protection from the hazards associated with the welding process and in environments where molten metal hazards are present.

Selecting premium black split leather for the product line is not only a style choice. Black and darker materials have a natural ability to shield against the types of radiation emitted during welding.
